

Led by Ryan Ball, Primary Lead and Curriculum Trainer at The Design and Technology Association with over 17 years experience teaching D&T

DESIGN & Technology

Friday 21st May 2021

9.30am – 3.30pm

This is an online event. Details for joining will be available in your booking confirmation email.

This full day course is for anyone planning and delivering D&T in a primary school. During the day delegates will trial a range of practical strategies that can be used back at school to help plan a broad and balanced curriculum for your primary school.

Session Content:

- Understand requirements of the National Curriculum
- Understand the requirements of the new Ofsted Framework and what they are looking for in a 'deep dive'
- Understand when it's 'D&T' and when it's not
- Long term, mid-term, and short-term planning
- How to successfully fit D&T into a crowded primary curriculum
- Discover and plan for the required resources to support the delivery of your department's curriculum

Learning Outcomes:

By the end of the course, delegates will:

- Have confidence developing ideas on how to embed D&T into the curriculum
- Be able to clearly express the Intent, Implementation and Impact of their D&T provision
- Have practical ideas for improving confidence of D&T teaching back in school

Cost £100 per delegate
(10% discount is available to Alliance members)
